The Commissioners

Chief Floyd Bartch (Retired), *Chairman*

Chief Floyd Bartch retired from the Kansas City, Missouri police department on April 2, 1999. After retirement, Chief Bartch served and continues to serve on various committees and boards concerning public issues in the Kansas City Metropolitan area. During his 31-year career with the police department, Chief Bartch was involved in the development of many programs. However, his experience in criminal justice and financial matters and as a lobbyist for the police department should assist him with gaming issues in the State of Missouri.

Judith (Judy) Sutter-Hinrichs

Judy Hinrichs is Vice-President Community Affairs for MERS/Goodwill Industries. Ms. Hinrichs has considerable experience as a community activist in civic, health, social service and cultural organizations. She serves as President of the St. Mary's Hospital Foundation of East St. Louis, Illinois and as a national board member of the Business and Professional Women's Foundation. She has served as President of the St. Louis Zoo Friends Association and the Asthma and Allergy Association. She has been an executive board member of the Missouri Environmental Improvement Energy Resources Authority (EIERA), Missouri Goodwill Industries, Leadership St. Louis, Life Crisis and the St. Louis Junior League as well as board member of many other organizations. As a member of the RCGA Public Policy Council and the RCGA Illinois Public Policy Council, Ms. Hinrichs is committed to the improvement and growth of downtown St. Louis and the St. Louis region.

Judge Jack Gant

Judge Jack Gant was appointed to the bench as a Circuit Judge on December 17, 1976. He served as an active judge until February 27, 1998, when he went on senior judge status. He served as a member of the Missouri State Senate from 1966-1976. He served in the Marine Corps. Judge Gant served as past president of the Missouri State Trial Judge Association; presiding judge of the Jackson County Circuit Court; Chairman of the Missouri Division of Youth Services State Advisory Commission; president of the University of Missouri-Kansas City Alumni Association and Law School Alumni Association. Judge Gant has received the judicial recognition award from the Association for Women Lawyers of Greater Kansas City; Greater Kansas City Metropolitan Bar Association Lifetime Achievement Award and Kansas City Metropolitan Bar Association President's Award. He has also received several awards from the University of Missouri-Kansas City including Law Foundation Award and Law Alumni Lifetime Achievement Award.

**A Tribute To
Dr. Muriel Battle
MGC Commissioner
March 15, 2000 - March 2, 2003**

She was a trailblazer, an educator, a mentor, an activist, a wife and a mother of four - she was Dr. Muriel Battle, the other half of husband Eliot. In their son Eliot Jr.'s words, "They are really a union that cannot be separated."

Muriel and Eliot moved to Columbia in 1956. It was in Columbia where she had a lot of firsts in her life - first black teacher at West Junior High School, first black principal in Columbia and first woman to be selected as an associate superintendent for the Columbia Public Schools.

Retired superintendent Russell Thompson, who hired Muriel to be his associate superintendent, saw in her more than an educator. "She was a superb role model not only for children but for the whole community," he said. "I thought of her as a very classy lady."

Muriel was a compassionate woman, taking time in her busy life to listen and to be there for others. Her daughter Donna said losing her mother was like losing her safety net. And daughter Muriel said her mother gave her own heart, soul and life to make the world a better place.

She received several awards during her career, including the Martin Luther King Jr. Award from Stephens College and, along with her husband, the 2000 Chamber of Commerce Outstanding Citizen of the Year Award.

In the words of her daughter Carolyn, "The greatest legacy we can all give my mother is to ask what she (Muriel) would have done and just do it."

Part of this information was used with permission from Columbia Daily Tribune

Message from the Chairman

On behalf of the Missouri Gaming Commission, it is my pleasure to present the annual report for FY 2003. This report is submitted to comply with Section 313.837, RSMo. I am the Commission's fifth chairman since its inception in 1993. The backgrounds of my predecessors are a tribute to the Commission's diversity. Of the five chairmen, there have been three democrats and two republicans. Two of the chairmen had backgrounds in business and finance, two in law enforcement and one as a lawyer. I hope that my background in law enforcement will help perpetuate the Commission's reputation for firm but fair enforcement of the gaming laws and regulations.

The FY 2003 annual report contains an account of the Commission's activities over the past year, including a summary of the status of each licensed gaming facility; a report of gaming tax and admission fee collections; an analysis of the gaming markets in Missouri; a summary of the responsibilities and activities of each section of the Commission's staff; a report on the status of the gaming industry affirmative action programs; and an update on the Commission's programs for problem gamblers and their families.

The annual report also contains a section fulfilling the Commission's statutory mandate to report to you on the effect of the loss limit on the competitiveness of Missouri riverboat casinos versus gaming facilities in neighboring jurisdictions. For the past decade, this Commission has reported to you that the data clearly shows the loss limit renders Missouri riverboat casinos less competitive versus their competitors in Illinois, Iowa and Mississippi. Indian casinos do not release the results of their operations. Thus, we are not able to provide an analysis of the competitive environment versus the Indian casinos in Kansas. However, the consistency of the data in other states suggests these casinos, operating without a loss limit, also enjoy a competitive advantage over casinos in Kansas City and St. Joseph.

It appears quite clear to the Commission that this statutory mandate has served its purpose. There has been little change in the data over the past decade, making the issue well settled. To our knowledge, it is undisputed that the loss limit results in a competitive disadvantage for Missouri casinos. Thus, in order to avoid unnecessary attention to an undisputed fact, we recommend you consider repealing this reporting requirement, which has now become an annual redundancy.

The gaming statutes also require the Commission to suggest changes in the adjusted gross receipts tax as provided in Section 313.822, RSMo. On pages 9-11, you will find a detailed analysis of Missouri's gaming tax rate as it compares to the gaming tax rates in other riverboat gambling states. In addition, the report provides the Commission's view of how tax rates affect the economics of gaming, the quality of the operations located in the state and the impact of gaming taxes on employees, home dock communities, patrons and state revenues.

Another of the Commission's statutory mandates is to provide recommendations for legislation the Commission deems advisable. The Commission is thankful for legislation enacted last session updating its statutory authority to use the FBI's fingerprint database. This year the Commission asks the General Assembly to consider legislation expanding the enforcement authority for Commission agents. Currently, the only gaming agents having complete enforcement authority are Missouri State Highway Patrol officers assigned to the Gaming Division. However, the Commission's enforcement presence has expanded and diversified over the years and now includes compliance auditors, electronic gaming device technicians, financial investigators and gaming enforcement managers. Each of these categories of personnel are critical to the enforcement effort and should have complete statutory authority to enforce Missouri's gaming laws.

A handwritten signature in black ink that reads "Floyd B. Burt". The signature is written in a cursive style.

The Commission also recommends legislation requiring jackpots won by persons in the voluntary exclusion program be deposited into the Compulsive Gamblers Fund. Under current law, problem gamblers who voluntarily exclude themselves from Missouri casinos are not eligible to place a wager or win a jackpot. If they win a jackpot, they forfeit the winnings and the casino retains the jackpot amount. The Commission believes it is more appropriate to dedicate these funds to problem gambling education, prevention and treatment efforts.

The most significant event affecting the Missouri gaming market was the expansion of Ameristar's gaming complex in St. Charles. Station Casinos began construction of the diverse entertainment facility in the mid-1990s. However, financial considerations persuaded Station to terminate construction of the facility, leaving it incomplete and in disarray, much to the consternation of the City of St. Charles. Ameristar purchased the property in 2000 and immediately announced aggressive plans to complete the facility. The final product did not disappoint St. Charles and Ameristar has established itself as the new market leader in Missouri.

The Commission suffered through a painful loss in 2003 when Muriel Battle passed away on March 2, 2003. Dr. Battle was best known for her lifelong vocation as an educator. She spent 40 years working on behalf of young people in the Columbia public schools. The Commission admired Muriel for her quick smile, good humor, impeccable integrity and fidelity to principle. Muriel and her husband, Eliot Battle, frequently traveled together to Commission events and embodied everything that is right and good about principled living and public service. Dr. Battle will continue to serve as a sterling example for current Commissioners and those to come.

The Commission also bid farewell to its Chairman and senior member Robert C. Smith. Chairman Smith had served on the Commission since July 1997 when he replaced Robert M. Clayton II. During his tenure on the Commission, Smith helped guide the Commission through many difficult issues. His experience in law, government and public policy proved invaluable. In 2002, Governor Bob Holden designated Smith the Commission's fourth Chairman. In this capacity, he further demonstrated his knowledge of the law and his penchant for fairness and justice. The Commission is thankful for his service and wishes him well.

Governor Holden appointed two new members to the Commission in 2003. Both members bring a wealth of experience in public service. Judith Sutter-Hinrichs is currently Vice-President of Community Relations for Mers-Goodwill of St. Louis. The Honorable Jack Gant is a retired Circuit Judge and former State Senator from Jackson County. Both members will help build upon the solid foundation that has been laid by previous Commissioners.

During FY 2004, the Commission will begin to examine the St. Louis metropolitan market to determine if it is in the best interest of Missouri to consider an additional license in this area. There has been significant growth in the St. Louis market over the past several years and the current casinos are clustered in the northern section of the region. While market studies continue to show unmet demand in the southern region of the market, the Commission is committed to examining proposals for an improved facility in downtown St. Louis. While the President Casino's future is uncertain as it makes its way through bankruptcy proceedings, the City of St. Louis is in the process of acquiring 20 acres adjacent to the riverfront near the Edward D. Jones Dome and has issued a Request for Proposals to develop a state of the art gaming facility.

You can expect the Commission to take its time with this process. The Commission and its staff will proceed in a diligent, prudent manner. The process will be lengthy and the analysis will be thorough. In the end, it will produce a decision based on sound reasoning. The Commission's record of accomplishment in managing the number of licenses in Missouri is excellent and this new group of Commissioners intends to build upon that tradition.

Message from the Executive Director

April 29, 2003 marked the 10th anniversary of the Missouri Gaming Commission. During the past decade, we have seen a remarkably dynamic evolution of commercial gaming enterprises in Missouri. Markets have changed, the products have changed, the venues have changed and the areas of regulatory focus have changed. However, one constant has maintained order throughout this turbulent decade – the Missouri Gaming Commission's fidelity to principle and its dedication to high standards for gaming licensees.

As you prepare for deliberations in the upcoming legislative session, there are three primary issues that merit special attention.

Technology and Its Impact on the Commission Workforce

The change in the way casinos operate and the way patrons gamble is having a substantial impact on the way the Commission regulates. We see ample evidence of the changes in casino operations and patron preferences by following the money. There has been a dramatic shift from table play to electronic gaming devices over the past ten years. In FY 1995 table game play represented nearly 46% of casino revenue. That percentage dwindled to less than 25% by FY 1998 and currently stands at less than 13%. Electronic gaming devices (EGDs) now dominate the casino floor.

The overwhelming shift toward EGDs leads to technology playing an increasingly important role in the way the industry operates and the way we regulate it. In the past two years, Missouri's casino floors have been completely reinvented through the implementation of "ticket-in ticket-out" (TITO) where bar-coded tickets are rapidly replacing metal tokens. In the coming months the Commission will have to evaluate wireless technology, comprehensive online metering systems, various technologies for converting currency into electronic cash and an array of technologies designed to speed up EGD software updates.

The Commission cannot stand still during this technological transformation. During the past three years, the Commission has added two highly trained EGD technicians and substantially increased technology training efforts. While these efforts have proven beneficial, they are not enough.

The Commission will be working with you to reinvent its workforce. The modern gaming regulator must have the tools necessary to analyze and decipher complex technological issues. They must be dedicated lifetime learners capable of constantly being retrained to handle new technologies.

This specialized workforce will not come cheap but experience has shown that not acquiring such talent is even more expensive. Over 60 percent of casino cheating theft involves EGDs and the trend is rising. We look forward to working with you to design the most efficient yet effective way to address this critical issue.

Taxes

As state governments throughout the country face fiscal crisis, it seems that among the more popular solutions has been dramatic increases in gaming taxes or the implementation of legalized gaming with exorbitant tax rates. Since these issues are typically fraught with controversy, few have been implemented. While a more detailed discussion of the impact of various tax policies is reserved for a section devoted to that topic on pages 9-11, it is important to note our assessment of Illinois' ill-advised tax policy decisions were correct.

Since the implementation of Illinois' two massive tax increases, gaming revenue in Illinois has continued to decline. Furthermore, there has been virtually no reinvestment in the state. If the current tax policies remain in place, Illinois facilities will deteriorate over time, resulting in a vastly inferior product and work environment

for Illinois employees. Conversely, Missouri operators continue to reinvest in Missouri based on steady revenue growth and stable tax policy.

Although Indiana also adopted a graduated tax system, which the Commission staff believes is a deterrent to capital investment, the more modest Indiana tax increase is showing early success. Indiana combined a relatively modest tax increase with regulatory changes allowing the industry to offer a more consumer-friendly product.¹ Unlike the Illinois policy changes that resulted in gross revenue declines, the changes in Indiana created an environment producing a 12% increase in gross gaming revenue.

The Commission staff continues to believe a graduated tax system on gross gaming revenues deters capital investment and is bad economic policy. However, if combined with changes in statutory regulations that allow the industry to provide a more consumer-friendly product, there is ample evidence that Missouri casino operators could absorb a modest across the board tax increase.

Internet Gambling

While we would not classify Internet gambling as an issue that merits specific action this year, it is something policy makers should learn about and begin to analyze. There currently is no comprehensive Internet gambling policy in the United States. While it is widely proclaimed to be illegal, it is equally widespread.² One need only pick up a sports magazine or tune into a sports radio or television station to observe rampant advertising for hundreds of Internet gambling sites. Furthermore, a cursory poll of a local sports bar or college campus will expose dozens of individuals who acknowledge they gamble on the Internet.

What should concern state policy makers most about congressional debates over Internet policy over the past eight years is the federal government's lackluster record of accomplishment in formulating gambling policy.³ In order to protect Missouri's interests, the Commission advises state policy makers to carefully monitor federal Internet gambling legislation.

Conclusion

The path to the present has not been easy and has often been controversial. Still, the current state of legalized gaming in Missouri is good. Current Missouri casino operators have accepted Missouri's strict regulatory climate and are working hard to establish good compliance records. The operators have shown their commitment to the state by steadily reinvesting their profits in capital expansion projects.

In addition, Missouri citizens have shown widespread acceptance of casino gambling as a form of entertainment as evidenced by a recent examination of casino databases showing that 1.6 million Missourians have visited a casino in the past year. This represents 42% of the state's population over the age of 21. Perhaps more telling, one person in at least 47% of Missouri households has visited a casino in the past year.⁴

After ten years, the Commission has built a national reputation for its prudent evaluation of gaming markets, its thorough investigations, its ability to carefully weigh difficult and complex issues, its innovative approaches to dealing with problem gambling and its willingness to rapidly reinvent itself through organizational change.

The Commission and its staff appreciate the support they have received from the Governor's office and the General Assembly during the past decade. Although opinions of legalized gambling vary widely, Missouri's public officials have been steadfast in their support of strict regulation. We will persist in building upon the foundation you have helped us lay and hope we can work together to protect the state's interests as this industry continues to develop.

¹ See page 10 for a more detailed explanation of the Indiana tax and policy changes.

² Attorney General Jay Nixon is one of the few U.S. law enforcement officials to obtain a conviction for Internet gambling.

³ For critical analysis of the Indian Gaming Regulatory Act, see Donald L. Barlett and James B. Steele, *Wheel of Misfortune*, Time, December 16, 2002. Also see, Rand, Kathryn, *There are no Pequots on the Plains: Assessing the Success of Indian Gaming*, Chapman Law Review, Spring 2002; and Washburn, Kevin, *Recurring Problems in Indian Gaming*, Wyoming Law Review, 2001.

⁴ Democracy Data Inc., survey of Missouri casino databases conducted in 2003. Interestingly, the percentage jumps to 59% if we expand the definition of household to include all common addresses. We chose to use the more conservative 47% number, which uses households with a common address and a common last name.

Section 313.837 Report on Competitiveness

Introduction

Since its inception, the Missouri law governing riverboat gambling has included a loss limit of \$500 per person for each “gambling excursion”, now a legal fiction used only for purposes of collecting the \$2 admission fee and administering the loss limit.¹ Missouri’s loss limit emulated an Iowa law that was repealed in 1995. Missouri is now the only jurisdiction in the world imposing a loss limit on its gambling customers.

Section 313.837, RSMo, requires the Commission to report annually to the General Assembly “the status of the competitiveness of Missouri excursion gambling boats when compared to the gaming tax rate of adjoining states and the effects of the loss limits imposed by subdivision (3) of Section 313.805, RSMo, on the competitiveness of the gaming industry in Missouri.”

Competitive Impact of the \$500 Loss Limit

For the past eight years, the Commission has fulfilled this statutory requirement by reporting that the data unequivocally shows the loss limit renders Missouri casinos less competitive than casinos in neighboring jurisdictions. Furthermore, the loss limit results in less gaming tax revenue for education, fewer tourists and less admission fee revenue for veterans, the National Guard, college student loans and early childhood development programs.

The reason the loss limit renders Missouri casinos less competitive is that customers do not like it. Those who use Missouri casinos find the loss limit a patronizing intrusion by government into a private business transaction. Perhaps more important to the issue of competitiveness are those who dislike the loss limit so much that they refuse to patronize Missouri casinos, choosing instead to visit casinos in neighboring jurisdictions² or to gamble illegally at truck stops³ and private clubs.⁴

¹ Section 313.800.1(8), RSMo., defines a “gambling excursion” as “the time during which gambling games may be operated on an excursion gambling boat whether docked or during a cruise.” Riverboat gambling operators are required to submit an excursion schedule to the Gaming Commission, which is responsible for approving the schedule. Most excursions are two hours with the exception usually being the last excursion of the gaming day, which is typically three hours. Thus, as a practical matter, the loss limit is \$500 every two hours.

² Missouri residents comprise 77% of the St. Louis metropolitan area population base. Yet, Missouri casinos in the St. Louis metropolitan area capture only 67% of the gaming revenue market.

³ Despite the best efforts of the Gaming Commission, there is ample evidence of widespread use of illegal slot machines in Missouri. A cursory survey of Missouri truck stops will show many contain illegal slot machines operated in plain view. Because the Gaming Commission does not have jurisdiction over these machines, the best it can do when it receives a citizen’s complaint is refer the matter to the Attorney General’s office and local law enforcement. Since 2002, the Commission has written 77 such letters reporting illegal slot machines at truck stops.

⁴ Since 1995, the Commission has initiated discipline against 40 bingo licensees for housing illegal slot machines. On October 1, 2001, the Commission adopted a zero tolerance policy, notifying licensees that it would seek license revocation of any licensee housing illegal slot machines. This seems to have curbed the use of such devices.

In addition, since Missouri is the only jurisdiction in the world with a loss limit, tourists and business travelers find it particularly confusing. Out-of-state customers visiting Missouri casinos for the first time often have a look of bewilderment when learning of the loss limit. They typically go directly to the entrance of the casino where they are rerouted to a ticketing window. Once there, the customer is told to produce government-approved photo identification and complete paperwork attesting to their identity. Finally, the casino issues the customer a player's card that will make a permanent record of their casino visits and track their play. Understandably, many customers simply leave rather than completing the process.

The propriety of the loss limit is a public policy issue for the General Assembly and the Governor. Many argue it was adopted to curb problem gambling. However, there has been no evidence that it is effective in this regard.⁵ Interestingly, while jurisdictions around the world have imitated many of Missouri's innovative programs to assist problem gamblers and prevent problem gambling behavior, none have adopted a loss limit.

Regardless of the decision to keep or repeal the loss limit, the Commission's obligation to report on competitiveness no longer serves a meaningful purpose. No one has been able to make a cogent argument that the loss limit does not render Missouri casinos less competitive. Since the answer to this question is clear, it is now time to repeal the reporting requirements in Section 313.805(3), RSMo. For the third consecutive year, the Commission respectfully requests you to do so.

Competitive Impact of Missouri's Gaming Tax Rate

The gaming tax rates imposed on riverboat gaming operations in Missouri have not changed since the first licenses were issued in May 1994. Missouri law imposes an 18% tax on the adjusted gross receipts (AGR) of riverboat gaming operators.⁶ In addition, a local tax of 2% on AGR is collected by the state and distributed to each home dock city or county.⁷

The statute also imposes an admission fee on the operators of excursion gambling boats in the amount of two dollars (\$2) per patron, per excursion, which is split between the home dock community and the state.⁸ Furthermore, pursuant to Section 313.824, RSMo, excursion gambling boat operators are charged for the cost

⁵ A preliminary survey of the people placing themselves in Missouri's voluntary exclusion program for problem gamblers indicates the ineffectiveness of the loss limit as a problem gambling deterrent. Over 90% of those surveyed indicate that the loss limit does not prevent people from becoming problem gamblers.

⁶ Adjusted gross receipts are defined by Section 313.800, RSMo, as "the gross receipts from licensed gambling games and devices less the winnings paid to wagerers." In other words, the amount the casino "wins" from patrons. It is often referred to as "casino win". The tax on AGR is set forth in Section 313.822, RSMo.

⁷ Section 313.822, RSMo.

⁸ Section 313.820, RSMo.

of gaming agents who are assigned to the riverboat with the responsibility of protecting the public. While the cost of Commission agents varies with each operation, the average annual cost is approximately \$568,000 per gaming facility.

Despite the massive tax increases recently enacted by Illinois, Missouri’s gaming tax rate remains among the top tier in the United States. The Commission continues to believe that graduated gaming tax represents bad economic policy. Graduated tax rates based on gaming tax revenue penalize companies for placing more capital at risk. Furthermore, high graduated tax rates discourage reinvestment of profits in such things as new technology, the construction of non-gaming amenities and marketing dollars used to grow the business. Finally, such tax policy inevitably results in layoffs and fewer job offerings.⁹ In summary, this type of tax policy encourages poorly maintained, understaffed facilities that cater primarily to local customers.

Illinois Tax Increase Summary

Tax Bracket (AGR)	Previous Rate	2002 Increase
Less than \$25 million	15.0%	15.0%
\$25 - \$50 million	20.0%	22.5%
\$50 - \$75 million	25.0%	27.5%
\$75 - \$100 million	30.0%	32.5%
\$100 - \$150 million	35.0%	37.5%
\$150 - \$200 million	35.0%	45.0%
Greater than \$200 million	35.0%	50.0%

Tax Bracket (AGR)	2003 Increase
Less than \$25 million	15.0%
\$25 - \$37.5 million	27.5%
\$37.5 - \$50 million	32.5%
\$50 - \$75 million	37.5%
\$75 - \$100 million	45.0%
\$100 - \$250 million	50.0%
Greater than \$250 million	70.0%

The effect of the Illinois tax increase is already apparent. While Missouri casinos continue to post steady growth in the face of the current recession, Illinois casinos are experiencing double-digit declines in gross gaming revenue. All of the significant construction and renovation projects in Illinois have been cancelled or indefinitely postponed.

While the Illinois tax increase has drastically decreased gaming revenues, Indiana’s more moderate tax increase has not. In 2002, Indiana increased its effective tax rate by 4.8% by adopting a graduated tax rate and eliminating its boarding fee on customers staying over for more than one “excursion”. Although the Commission argues against the graduated tax rate, the negative impact to gaming revenue was mitigated somewhat by Indiana coupling regulatory reforms with the tax increase. Before 2002, Indiana imposed restricted boarding and mandatory cruising. In conjunction with the 2002 tax increase, Indiana rescinded the boarding and cruising requirements, thus allowing casino operators to effectively absorb the tax increase.¹⁰

⁹ “Casinos blast Illinois tax increase”, Chicago Sun Times, September 3, 2003, quoting Illinois Casino Gaming Association executive director Tom Swoik, “As a direct result of this tax policy, we have laid off nearly 700 employees and are not filling close to 600 additional vacancies. Additionally, we anticipate there may be further layoffs in the months to come.”

¹⁰For the 12 months ended June 2003, Indiana casinos realized a \$233 million increase in gaming revenue, while taxes increased only about \$165 million.

While the Iowa tax rate is lower than Missouri's, it is comparable, and like Missouri, its tax structure has not changed since initial enactment. There is no evidence that the lower Iowa tax rate is having negative impact on the competitiveness of Missouri casinos. Certainly, over the long term, the fact that Indian casinos in Kansas pay no tax will have an impact on western Missouri gaming operators. You should also be aware of the potential for rapid expansion of Kansas Indian casinos.¹¹ Finally, Missouri casinos have been profitable in spite of the high tax rate largely because of the Commission's gradual approach to licensure. The Commission's practice of waiting to introduce new gaming capacity into a market until there is adequate demand allows Missouri licensees to remain profitable and encourages them to reinvest in Missouri.

¹¹ The Wyandotte Tribe of Oklahoma opened a casino in downtown Kansas City, Kansas on August 29, 2003. While there is currently litigation challenging the legality of the casino and the machines in play, the casino continues to operate in spite of having no agreement with state or local governments. See "KCK Casino Opens Amid Controversy", Kansas City Star August 29, 2003.

Summary

The Missouri tax rate remains among the highest in the gaming industry. However, its structure has some inherent advantages over Illinois and the lower tax rate in Iowa does not appear to be affecting the competitiveness of the Missouri operators. The data from Indiana offers evidence that the industry can absorb a modest tax increase without adverse economic consequences if it is accompanied by other policy changes allowing gaming operators to eliminate practices consumers find offensive, such as the loss limit.

Organizational Structure

EXECUTIVE DIRECTOR

Kevin Mullally, Executive Director

The Executive Director is the Missouri Gaming Commission's chief operations officer. The Executive Director is responsible for the overall functions and policy of the staff. The Executive Director also serves as the primary liaison between the Commissioners and the staff.

ENFORCEMENT

Steve Johnson, Chief Deputy Director

Licensing investigations, special investigations, existing property expansions, new system and regulation development and the continuing evolution of electronic gaming devices (slot machines) have been the focus of the enforcement section this fiscal year. As reported last year, we are understaffed; however, our officers and agents continue to ensure the integrity of gaming and the protection of assets as well as oversee the safety of both staff and patrons aboard our excursion boats. The enforcement section is also responsible for the coordination of investigation into complaints relative to this industry and responding to those who are displeased with any particular practice, issue or incident. Another significant function within the enforcement section is supervision and maintenance of the charitable gaming industry (Bingo) within the state. This industry is also experiencing an electronic evolution that is moving them away from the traditional paper-based conduct of Bingo. We have maintained a reasonable regulatory presence in this arena, with a continued emphasis on fairness, consistency and responsiveness to the industry's concerns. Our agents and supervisors in this unit have devoted a significant amount of their time in assisting out-state jurisdictions with the detection and seizure of illegal gaming devices which can be found virtually statewide. It is important to note that our agents do not have primary enforcement authority relative to illegal devices unless these devices are located within licensed Bingo facilities. As mentioned in previous annual reports, we have adopted a zero tolerance policy relative to illegal devices in licensed Bingo halls, which is likely why we have noticed a significant decline in the number of complaints relative to this issue. (See more detailed information on charitable gaming on pages 28-30.)

Cashless wagering is the latest industry innovation and Missouri is seeing a steady transition to this concept. The development of internal controls relative to the conversion to cashless wagering as well as the practical problems associated with the conversion of existing devices to this system have burned a significant amount of available staff time. In addition to this concept, slot machine monitoring systems have become increasingly sophisticated and our agents have worked very hard to stay ahead of the learning curve while managing this function.

A significant departure from business as usual this past year has been the first major overhaul of the Commission's approach to the disciplining of industry for infractions or oversights that come to our attention. Our discipline process has been significantly streamlined with a focus on efficiency, fairness, timely notification of licensees who are being accused and a timely resolution of cases resulting in some form of discipline. The significant changes to the discipline process include the separation of the process into two distinctive arenas; the investigatory process and the adjudication process. (Prior to the development of the new system, the investigators who actually investigated an incident were charged with the additional responsibility of making a recommendation regarding punitive responses. The investigators no longer have that responsibility.) We have developed a new notice of investigation that guarantees the licensee the opportunity to respond to the accusation and is not, in itself, a disciplinary instrument. We have formed a formal six member disciplinary review board that meets weekly rather than every six weeks, and are currently developing a comprehensive database to capture all discipline-related data from a totally revised Gaming Incident Report form. The development of this new process was accomplished through the efforts of a multi-disciplined group representing both industry and all relevant components of the Commission staff.

We have begun the daunting task of rewriting the various sections of the Minimum Internal Controls in an effort to bring them up-to-date. We have just completed the section related to electronic gaming devices and will be bringing the new standard to the Commission for approval in the very near future. This process is arduous at best and involved representatives from industry working hand-in-hand with our staff to complete. We are beginning the next section, Table Games, and should have that section completed early next year.

Finally, I would like to offer my deep appreciation to the enforcement staff for an exceptional effort this past year. They have embraced the endless stream of new concepts, technologies and systems with zeal and a wonderful can-do attitude. This, in addition to their already formidable responsibilities associated with enforcement, clearly indicates a high level of professional resolve and loyalty to the mission of the Commission.

Audit - The audit staff performs independent audits, reviews and investigations to identify and document noncompliance with laws, policies and procedures. Auditors recommend corrective actions related to internal controls and interpretation of policy and work closely with officer-agents in follow-up investigations arising out of audit findings as well as agent initiated cases. The audit staff complies with the Standards for the Professional Practice of Internal Auditing and Government Audit Standards. Gaming is a very sophisticated business, more so today than ever before as a result of sophisticated slot machine management systems and increasing automation in virtually every facet of this business, from mixed drink delivery systems to electronic access control systems. In an attempt to adequately monitor and audit these functions, we have a staff of 21 auditors to conduct comprehensive audits where indicated. During FY 2003, the audit staff prepared 60 audit reports reflecting the results of audits of casino operations.

Licensing – The licensing staff coordinates and implements the licensing of excursion gambling boats (Class A), issuance of Class A liquor licenses, licensing of suppliers of gambling games and administers License 2001, a statewide licensing program that contains information on 11, 231 active Level I, Level II and service technician occupational licensees. License 2001 provides the Commission a vehicle to license and track all occupational licenses, as well as generate a monthly invoice for fees associated with applications, licenses issued, duplicate licenses and renewals for Level I, Level II and service technician occupational licenses.

During FY 2003, licensing, enforcement and IT staff were instrumental in Level II licensure of over 1,000 additional employees at Ameristar Casino St. Charles due to their expansion. Occupational gaming licenses issued statewide for FY 2003 totaled over 4,600 and renewals totaled approximately 8,700.

Licensing personnel were issued, trained and certified to use Personal Applicant Live Scan units, which allows applicants to be electronically fingerprinted for licensing requirements. The electronic transmission of fingerprints to the Missouri State Highway Patrol provides for 24-hour turn-around time on criminal record responses. Electronic transmission of fingerprints to the Federal Bureau of Investigation was implemented on August 12, 2003.

A new Level II application and a new Key Person and Level I application were released to Class A and Supplier licensees to further enhance occupational licensure.

New badging equipment and scanners were procured for Commission gaming offices in the field to ensure integrity of the licenses, as well as more efficiently manufacture the state gaming licenses. State-of-the-art scanners will allow Level II license applications to be stored electronically and also utilized with the new DAP application system.

A review of Chapter 4- Licensing, Code of State Regulations, is ongoing to provide detailed clarification regarding requirements for Class A, Supplier and occupational licensure.

Training - The continuous evolution of electronic gaming devices coupled with a more sophisticated approach to stealing has necessitated a shift in our training priorities. Identity theft continues to be a major consideration for both the industry and those who regulate it. We have worked with the various gaming companies this past year in an attempt to educate them on matters related to fraudulent identification and the theft of identification in an effort to curtail this activity in Missouri. Our involvement in the voluntary exclusion program also necessitates current training related to identification concerns. The changes in the electronic arena have been handled through a partnership with various industry authorities such as International Game Technology and our testing contractor, Gaming Laboratories International. We have opened our training, space available, to other gaming jurisdictions in an effort to coordinate regulatory responses throughout the regulatory environment.

Our training section, under the direction of Mr. Chris Baker, has also delivered training to all boat agents and senior management members relative to the aforementioned new discipline process. Our training section has conducted 35 separate training sessions with total attendance of 429 students. The reduction in the total number of students is the direct result of most agents having been through the basic games protection schools and the necessity to focus narrowly on topics that are specialized in nature. We do not anticipate a shift in training priorities in the upcoming fiscal year.

Pari-Mutuel Horse Racing – Pari-Mutuel Horse Racing was established in the State of Missouri with the enactment of Senate Bill 572 in 1986. This allowed for wagering on the outcome of horse races in which those who wager purchase tickets of various denominations on a horse or horses in one or more races. To this date no track has been established in the state. The Gaming Commission was assigned the responsibility for governing pari-mutuel horse racing from the Missouri Horse Racing Commission in 1997.

Missouri State Highway Patrol – The Gaming Division of the Highway Patrol, pursuant to a memorandum of understanding with the Gaming Commission, provides criminal and regulatory enforcement of gaming operations within the state. Under the command of Captain Robert Bloomberg, the division is divided into four sections: Eastern District Enforcement, Western District Enforcement, Background Investigations and Administrative Services. The enforcement districts are responsible for enforcing Missouri statutes and Commission regulations on licensed casino properties. The background unit conducts investigations of individuals, companies and suppliers applying for licensure with the Commission, as well as persons applying for employment with the Gaming Commission. The background unit has a section that is responsible for enforcement related to charitable games in Missouri. The administrative services section oversees the collection and preservation of evidence and property, division training, criminal records and case management and special projects performed by the Gaming Division.

Charges listed in the chart on the following page were filed as a result of arrests made by troopers assigned to the Gaming Division from July 1, 2002 through June 30, 2003.

TYPE OF CHARGE	NUMBER		TYPE OF CHARGE	NUMBER
Assault	32		Motor Vehicle	120
Conservation	2		Obstruction of Judicial Process	461
Damaged Property	136		Obstructing Police	8
Dangerous Drugs	40		Peace Disturbance	6
Family Offense	7		Prostitution	1
Flight/Escape	18		Public Order	1
Forgery	43		Robbery	2
Fraud	53		Sex Offenses	1
Gambling	187		Sexual Assault	1
Homicide	1		Stealing	81
Liquor Laws	8		Stolen Property	6
Misc. Admin. Charges	5		Weapons	4
Misc. Fed. Charges	1		Total Charges	*1,225

*These totals reflect the number of charges filed by agents of the Commission. The number of individuals arrested will be lower as some individuals may have multiple charges filed as a result of an individual incident. These totals also include arrests made attendant to outstanding warrants for criminal activity that did not occur on property of excursion gambling boats.

ADMINISTRATION

Deborah A. Ferguson, Deputy Director

The administration section of the Missouri Gaming Commission is responsible for managing all fiscal, personnel and record keeping resources of the agency. In addition, the administration section provides support services to 111 Commission employees and, pursuant to a memorandum of understanding, to 124 Highway Patrol officers assigned to the Commission. This section oversees budget development, revenue collection, accounts payable, accounts receivable, cost accounting, procurement, facilities management, support services, human resources, asset inventory and records management. Administration has worked extremely hard during FY 2003 implementing new processes and procedures to enhance the capabilities of the section.

The human resources section developed a new employee exit interview questionnaire and established a new process for conducting employee exit interviews. The data obtained from the exit interviews will be used to analyze trends in organizational development and to assess the work atmosphere for potential improvement initiatives.

Additionally, the human resources section has created a new application form and "Applicant

Characteristic Survey Form,” which is in the final phase of development. The information gathered from this form will be used for federal reporting and research purposes. It will also assist in determining the effectiveness of our recruitment efforts in reaching all segments of the population and in providing equal employment opportunity.

The Commission has been busy working with the Office of Administration–Division of Personnel with the startup of the Uniform Classification and Pay Plan Study in January 2003. Human resources continues to provide information and it is anticipated that recommendations from O.A. personnel will be submitted to the Commission by end of calendar year 2003.

The records administrator chaired a team of Commission employees representing Enforcement, Information Technology, Legal and the Missouri State Highway Patrol in the review and restructuring of the Key Person and Level I Application form. This once cumbersome and lengthy form has been simplified and made user-friendly for both applicants and Gaming Commission staff. It can also be downloaded from the Commission’s website and completed online.

Administration worked closely with the Division of Facilities Management in FY 2003. The lease at the St. Louis Commission office expired on June 30, 2003. Administration was required to submit a new space analysis to Facilities Management and then bids were solicited. The lease for the St. Louis office at 11775 Borman Court, St. Louis, Missouri was renewed for a five-year renewal period. The Kansas City Office lease had been renewed in FY 2002.

This section also worked closely with the State Auditor’s Office to finalize its audit of FYs 2000, 2001 and 2002 financial statements. The auditors determined that the financial statements for the audit period were presented fairly. The agency continues to improve and adjust internal control procedures in order to maintain efficient and effective operations.

The data on the following page shows the proceeds, including interest earned, from riverboat gaming and charitable bingo for education and veterans:

PROCEEDS TO EDUCATION		
	Riverboat Gaming	Bingo
FISCAL YEAR 1995 THRU 6/30/1995	\$ 56,616,282.04	\$ 6,253,703.96

------------------------------	---------------------------

The Missouri Gaming Commission follows Section 313.835, RSMo, for operating fund transfers. It states: "All revenue received by the Commission from license fees, penalties, administrative fees, reimbursement by any excursion gambling boat operators for services provided by the Commission and admission fees authorized pursuant to the provision of Section 313.800 to 313.850, except that portion of the admission fee, not to exceed one cent, that may be appropriated to the compulsive gamblers fund as provided in Section 313.820, shall be deposited in the state treasury to the credit of the 'Gaming Commission Fund' which is hereby created for the sole purpose of funding the administrative costs of the Commission, subject to appropriation."

The statute also provides that the remaining net proceeds in the Gaming Commission Fund for each fiscal year are distributed to various funds in amounts defined in the statute. Additionally, the first five hundred thousand dollars shall be appropriated on a per capita basis to cities and counties that match the state portion and have demonstrated a need for community assistance. As a result, the following amounts have been transferred since inception to the Gaming Commission Fund.

Fiscal Year of Transfer	Veterans Commission Capital Improvement Trust Fund	Missouri National Guard Trust Fund	Mo College Guarantee Fund	Early Childhood Development, Education and Care Fund	Compulsive Gamblers Fund	Cost Allocation to General Revenue	Totals
FY 1994/1995	\$8,408,536.13						\$8,408,536.13
FY 1996	\$23,487,182.59						\$23,487,182.59
FY 1997	\$30,388,830.54						\$30,388,830.54
FY 1998	\$35,905,493.46						\$35,905,493.46
FY 1999	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$30,237,763.51			\$40,737,763.51
FY 2000	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$34,217,803.75			\$44,717,803.75
FY2001	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$30,691,290.20	\$46,612.00		\$41,237,902.20
FY2002	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$31,266,433.92	\$398,074.00	\$576,473.00	\$42,740,980.92
FY2003	\$3,000,000.00	\$3,000,000.00	\$4,500,000.00	\$33,947,613.45	\$489,850.00	\$576,473.00	\$45,513,936.45
Totals	\$113,190,042.72	\$15,000,000.00	\$22,500,000.00	\$160,360,904.83	\$934,536.00	\$1,152,946.00	\$313,138,429.55

Effective August 28, 2003, the 92nd Missouri General Assembly, at its First Regular Session, passed House Bill 444 changing the distribution of net proceeds in the Gaming Commission Fund each year. Under the provisions of this bill, the total distribution for each fund will be as follows: \$6 million to the Veterans' Commission Capital Improvement Trust Fund; \$5 million to the Missouri College Guarantee Fund; \$4 million to the Missouri National Guard Trust Fund; and the remaining net proceeds to the Early Childhood Development, Education and Care Fund.

INFORMATION TECHNOLOGY

Ray Pope, Director

Since the inception of the Missouri Gaming Commission, primarily, systems borrowed from other government agencies have fulfilled the data needs of the Commission. At this point in the Commission's development, it is time to begin developing application systems that reflect our growth of knowledge in the gaming industry. Over the next year, we intend to complete a few of these systems and put in place the necessary practices to continue developing new applications and maintain and enhance the in-place systems. It is also appropriate that we undertake improving the staff efficiencies through better application of the computer technology currently in place. This undertaking is significant and will take several years to complete.

We will also monitor the network configuration to evaluate its capacity to accommodate the enhanced data collection and delivery needs. We will be collecting electronic images of documents created in the field for storage and more efficient workflow between the field and the central office in Jefferson City.

LEGAL

Michael Bushmann, General Counsel

The legal section, formerly the legal and legislative affairs section, was reorganized during FY 2003. Following the departure of the deputy director for legal and legislative affairs, that staff position was eliminated and the duties related to legislative issues were reallocated among other staff members. The general counsel was named as the new supervisor of the legal and problem gambling program staff.

The legal section provides legal advice to the Commissioners, Executive Director and other Commission staff regarding riverboat and charitable gaming issues, including review of financial transactions, interpretation of laws and regulations and analysis of policy proposals. The section assists the Commission in its quest to ensure that riverboats, bingo organizations, suppliers and individual licensees abide by all laws and rules of the Commission. In particular, Commission lawyers are responsible for drafting proposed disciplines against licensees for violations of laws or rules and presenting those disciplines to the Commission. The legal staff also serves as a liaison with the Attorney General's office regarding discipline appeals and related matters.

In FY 2003, 17 disciplines were imposed on Class A excursion gambling boat licensees. Nine of these disciplines have appeals currently pending. The disciplines proposed fines ranged from \$5,000 to \$250,000 for violations including late tax remittals, audit and sensitive key violations, failure to remove revoked software from slot machines, failure to notify and obtain approval for a financial transaction and failure to perform due diligence on a business associate.

Level I licensees hold gaming licenses for key managerial positions within a riverboat gaming operation, such as the general manager, controller and department managers. In FY 2003, one Level I licensee was disciplined, receiving a 7-day suspension.

Level II licensees hold gaming licenses for occupational positions such as dealers, slot machine technicians and cocktail servers, to name a few. In FY 2003, disciplines were proposed against 181 Level II licensees. Of the disciplinary actions proposed against Level II licensees, 25 were license revocations, 38 were license suspensions, 11 were reprimands and 107 were denials of permanent licensure.

Disciplines imposed in the bingo section have ranged from written reprimands, to license suspensions, and in a few rare cases, license revocation. In the past year, disciplinary action was initiated against seven bingo organizations licensed in Missouri. Of those disciplines, one has been settled and six are pending appeal.

CORPORATE SECURITIES AND FINANCE

Jim Oberkirsch, Chief Financial Analyst

The primary functions of the corporate securities and finance section are financial reporting, gaming market analysis, financial suitability analysis and tax collection.

The Commission provides a monthly market statistics report on its website.¹ The report provides data on adjusted gross receipts (gaming revenue), patron volume, admission counts and the amounts of the gaming tax and admission fees collected.

¹ www.mgc.dps.mo.gov/finan_map.html

The corporate securities and finance section is responsible for the analysis of the gaming markets in Missouri for the purpose of providing the senior staff with information they need to make decisions regarding expansion, rule changes and regulatory resolutions. Regarding expansion, the goal is to determine the timing, number and placement of additional casinos. The Commission's charge is to issue licenses to applicants that best serve the interests of the citizens of Missouri. In order to fulfill this responsibility, the Commission evaluates many factors, including whether new gaming capacity can be added to the market without unduly impacting previously licensed facilities. The Commission, in evaluating proposals for additional licenses, focuses on creating incremental growth, expansion of tax revenues, ancillary economic development and employment. Furthermore, it carefully scrutinizes the level of community support and the ability of the developer to minimize the negative social and economic impact of the facility. Thus, Missourians can expect the Commission to deal with expansion issues in a cautious and prudent manner that includes a lengthy public process. However, should a facility become substandard, fall into disrepair or otherwise become non-competitive, the Commission would be forced to consider new projects in that market of better quality that meet the high standards it sets for licensees.

The section also examines business transactions of the licensee's parent company, including the issuance of debt or equity, acquisitions, mergers and others. This analysis is done to determine whether the financial suitability of the gaming entity will be impaired due to the transaction and whether any regulatory action is necessary.

Another function of the corporate securities and finance section is the collection of the gaming tax and admission fees assessed upon casino licensees by statute. The critical role of the tax auditors is to audit the approximately 4,380 tax returns for accuracy and completeness. They also perform on-site tax audits in order to reconcile supporting documentation to the tax returns.

MISSOURI GAMING COMMISSION

JULY 2003

22

Gaming Market Report

Introduction

This section provides an overview of the statewide and regional gaming markets. The Commission closely monitors the markets to determine whether they merit additional capacity. The Commission's charge is to issue licenses to applicants best serving the interests of the citizens of Missouri.¹ In order to fulfill this responsibility, the Commission evaluates each market to determine whether it can add new gaming capacity without unduly affecting previously licensed facilities.²

The Commission, in evaluating proposals for additional licenses, focuses on creating incremental growth, expansion of tax revenues, ancillary economic development and employment. Furthermore, it carefully scrutinizes the level of community support and the ability of the developer to minimize the negative social and economic impact of the facility. Thus, Missourians can expect the Commission to deal with expansion issues in a cautious and prudent manner that includes a lengthy public process.

However, should a facility become substandard, fall into disrepair or otherwise become non-competitive, the Commission would be forced to consider new projects of better quality that meet the high standards it sets for licensees. Operators of substandard facilities should not expect protection from the Commission. To the contrary, if a licensee allows its property to deteriorate and become inferior, it should expect the Commission to examine new projects that are more operationally sound.

Statewide Market

Statewide gaming revenue increased 8% to just over \$1.3 billion in FY 2003. The gain reflects a 5% increase in patron volume combined with a 2% increase in Win Per Patron (WPP). WPP is the amount the casino wins, on average, from each patron per visit. The opening of the Ameristar St. Charles expansion in August 2002 and the full year contribution from the Isle of Capri in Boonville mainly drove the increase in patron volume. The increase in WPP primarily reflects an increase in the slot hold percentage thanks to the continued migration to the new generation of nickel video slot machines. The following table offers a statewide statistical comparison of FYs 2003 and 2002.

	FY 2003	FY 2002	% Change
Gaming Revenue	\$ 1,305,128,000	\$ 1,212,107,000	7.7%
Patrons	23,736,000	22,565,000	5.2%
Win Per Patron	\$ 54.99	\$ 53.72	2.4%

¹ Section 313.805(1), RSMo.

² This is only one of many criteria the Commission evaluates when considering licensure found in 11 CSR 45-4.080.

Statewide Gaming Revenue

Based on the current statewide trends that show flat patron volume and stabilizing WPP (see following three graphs), the Commission expects relatively flat gaming revenue in the first half of the coming year, with the potential for slow growth in the second half due to the opening of the Argosy expansion in Kansas City in late calendar year 2003.

Gaming Revenue Trend (trailing twelve months)

Patron Volume Trend (trailing twelve months)

WPP Trend
(trailing twelve months)

Kansas City Market

The Kansas City market posted gaming revenue of \$613 million for the fiscal year, a 3% increase over the prior year. The market showed flat patron volume combined with slightly higher WPP. Ameristar beat out Harrah's for the top spot in the market, while the Isle of Capri beat Argosy, both for the first time ever. In terms of gaming revenue, the market fell to fifteenth place, from twelfth, out of the 38 markets in the United States.

The market is looking for a boost from the Argosy expansion, set to open near the end of 2003. The \$110 million expansion in Riverside features a barge in a basin containing 50% more gaming space than the current boat, as well as additional amenities.

	FY 2003	FY 2002	% Change
Gaming Revenue	\$ 612,566,000	\$ 596,191,000	2.7%
Patrons	10,775,000	10,779,000	0.0%
Win Per Patron	\$ 56.85	\$ 55.31	2.8%

Kansas City Market Gaming Revenue

St. Louis Market

The Missouri boats in the St. Louis market posted strong growth with gaming revenue of \$553 million, a 9% increase over the prior year. The gain was fueled by the Ameristar expansion (discussed below), which led patron volume higher by 8%. The coming fiscal year will likely show flat results as the impact of the expansion moderates. Harrah's broke ground on their \$75 million expansion, which includes a 300-room hotel tower and added convention space. This expansion will provide the next best chance for meaningful growth in the market.

Ameristar St. Charles opened their \$210 million expansion in August 2002, featuring 130,000 square feet of gaming space, 3,300 slot machines, 95 table games, accompanied by a streetscape scene with seven restaurants. The Commission estimates that the facility grew the overall market on an annual basis by approximately \$50 million or 10%. The new facility increased Ameristar's gaming revenue by 74%, or over \$100 million. Ameristar replaced Harrah's as the market leader with 29% of the market, up from 20% last year.

The Illinois boats in the St. Louis market posted gaming revenue of \$274 million, down slightly from last year. They captured 33% of the gaming revenue in the St. Louis market, down from 35% in the prior year, in large part due to the Ameristar expansion.

In terms of gaming revenue, the total St. Louis market now ranks eighth out of 38 markets in the United States, up from tenth last year.

	FY 2003		FY 2002		% Change
Missouri Boats					
Gaming Revenue	\$	553,422,000	\$	506,140,000	9.3%
Patrons		10,418,000		9,652,000	7.9%
Win Per Patron	\$	53.12	\$	52.44	1.3%
Illinois Boats					
Gaming Revenue	\$	273,803,000	\$	277,344,000	-1.3%
Patrons		3,625,000		3,704,000	-2.1%
Win Per Patron	\$	75.53	\$	74.88	0.9%

St. Louis Market Gaming Revenue
Missouri Boats Only

Other Markets

The four small market casinos in Missouri posted mixed results. The older casinos in St. Joseph and Caruthersville recorded weak results as they labored under struggling regional economies. The newer casinos in LaGrange and Boonville fared better as new Missouri residents continue to be introduced to gaming.

Overall, gaming revenue increased 27% to \$139.1 million, almost solely due to the full year contribution from the Isle of Capri in Boonville. The older small market casinos in Caruthersville and St. Joseph posted a 5% decline in gaming revenue for the fiscal year. The absence of new catalyst for growth point to lower gaming revenue for the coming fiscal year.

	FY 2003	FY 2002	% Change
Gaming Revenue	\$ 139,139,000	\$ 109,776,000	26.7%
Patrons	2,545,000	2,134,000	19.3%
Win Per Patron	\$ 54.67	\$ 51.44	6.3%

Other Market Gaming Revenue

Charitable Gaming

Charitable gaming includes licensed bingo and associated games such as pull-tabs, merchandise coin boards and other “free” no charge promotional events. The operation of these games is restricted to qualified licensed, religious, charitable, fraternal, veteran and service organizations. In addition, to qualify for the license, the organization must possess an Internal Revenue Service 501(c) (3), (4), (5), (7), (8), (10), (19), or 501 (d) exemption. Organizations must have been in continuing existence in this state for at least five years preceding making of application and have had at least 20 bona fide members during that period.

All proceeds derived from the conduct of bingo must be used for lawful, charitable, religious or philanthropic purposes of the organization, and no part of the net earnings may inure to the benefit of any individual member of the organization.

The number of bingo licensees continues to decline each year with a total of 517 regular licensees in FY 2003. This is down approximately 33 licensees from the previous fiscal year. The chart below reflects the total decline over the past three years.

TYPE OF LICENSE	FY 01	FY 02	FY 03
Regular Bingo	576	550	517
Special Bingo (Valid for one event from 1 to 7 days)	368	345	350
Abbreviated Pull-Tab (Valid for 24 hours, limit 4 per calendar year)	163	159	141
Supplier	6	7	7
Manufacturer	9	11	13
Hall Provider	192	147	151

The fees charged for the various licenses within the Charitable Games Division are as follows:

Regular Bingo License	\$50
Special Bingo License	\$25
Abbreviated Pull-Tab License	\$10
Supplier License	\$5,000 (new) \$1,000 (renewal)
Manufacturer License	\$1,000 (new) \$500 (renewal)
Hall Provider License - the fee is based on the number of occasions conducted on the premises	\$150 (new per organization) \$100 (renewal per organization)

The following chart represents licensing fees collected for the past three fiscal years.

Type of License	FY01	FY02	FY03
Bingo Licenses	\$ 39,425	\$ 38,905	\$ 36,670
Manf./Supplier Licenses	\$ 18,500	\$ 20,000	\$ 20,000
Hall Provider Licenses	\$ 13,450	\$ 13,000	\$ 13,150
Miscellaneous (statute book sales, directory sales, interest)	\$ 6,668	\$ 20,147	\$ 610
Total	\$ 78,043	\$ 92,052	\$ 70,430

The current tax rate for bingo paper is 2/10^{ths} of one cent per bingo face. The current tax rate for pull-tabs is 2% of the retail sales value of each pull-tab deal. The tax is remitted by the suppliers and is due by the last day of the month following the month the product was sold. The supplier retains 2% of the total due for the cost of collection. The following chart represents the bingo tax collected over the past three fiscal years. All bingo tax is deposited into the Proceeds for Education Fund.

Although the number of licensees continues to decrease, the actual tax collection increased slightly in FY 2003. The total collections, however, is still down due to the declining interest rates over the past two fiscal years.

Proceeds for Education	FY01	FY02	FY03
Supplier Tax	\$ 3,514,132	\$ 3,187,204	\$ 3,209,784
Interest Earned	\$ 398,335	\$ 227,365	\$ 143,210
TOTAL	\$ 3,912,467	\$ 3,414,569	\$ 3,352,994

In FY 2003, the Charitable Games Division continued to explore ways to improve communication with the charitable organizations. Therefore, a new in-state toll-free telephone number was established, 866-801-8643. In addition, all forms, applications, bulletins, etc., are now available on the Missouri Gaming Commission web page at www.mgc.dps.mo.gov.

The Missouri Gaming Commission adopted a new regulation in FY 2003 that requires licensed manufacturers to report prices charged to the suppliers in Missouri for bingo paper and pull-tabs being sold in the state. The regulation also requires that licensed suppliers report any sales of such products they intend to sell below the price paid for the supplies. The Bingo statutes require that the Commission ensure that bingo supplies sold in the State of Missouri are priced at a reasonable market rate. By receiving the quarterly reports from the manufacturers, the Commission is better equipped to monitor the reasonable market rate and ensure that suppliers, large and small, can remain equally competitive in a declining market. The importance of this requirement is to protect the non-profit organizations from the end result of paying an unreasonable amount

for their bingo products.

The bingo section received 112 complaints, 107 of which were resolved in the same year. The enforcement section conducted 34 inspections during FY 2003; the bingo audit staff assisted with 21 of the inspections. In addition, the audit section conducted 63 audits, including bingo product manufacturers, suppliers and charity game operators. Audits and/or inspections are generally initiated by complaints from players or members of the organizations. During FY 2003, the audit staff implemented two new audit strategies. To take a more proactive approach to compliance, a list was compiled of all bingo operators who had never been contacted in person by Commission representatives. Fifteen of the 63 audits conducted were organizations randomly selected from this list. The audit staff also reviewed the records of organizations previously audited and began conducting follow-up desk audits to determine if the organizations had complied with the suggested changes from the previous visit. Eight of the 63 audits conducted were follow-up desk audits.

Bingo statutes and regulations establish due dates for suppliers, hall providers and bingo operators to submit renewal applications and quarterly reports. Failure to meet the established due dates result in a penalty being assessed in the amount of \$5 per day. Penalties are also assessed in some disciplinary cases. The penalty is collected by the Charitable Gaming Division and then forwarded to the County Treasurer in the county where the company or organization is located for deposit in the county school fund. During FY 2003, the bingo section processed 215 penalties that resulted in \$33,172.50 additional funds for various schools throughout Missouri.

Officers and/or workers of charitable organizations participating in the management, conduct or operation of bingo may only participate if they have never been convicted of a felony. The Commission performs a criminal background check on all names submitted to ensure that no felons are involved. During FY 2003, a total of 32,105 record checks were performed and a total of 43 convicted felons were identified and excluded from participating in the management or operation of charitable games. The total number of felons excluded since the Charitable Games Division was moved to the Missouri Gaming Commission in 1994 is 584. During this same time period, a total of 75,281 criminal history checks have been conducted.

Problem Gambling

Problem Gambling

Missouri continued to be an innovative influence in problem gambling efforts during the past year through the additions and enhancements of the programs and services provided throughout the state. Significant strides were made toward researching the effectiveness of the Voluntary Exclusion Program, the underage prevention programs were strengthened, treatment services were augmented with additional providers and the speakers' bureau and traveling educational exhibits were well-utilized throughout the year.

Over 80 percent of Americans participate in some form of gambling.¹ For most people, gambling is an occasional recreational activity in which they participate responsibly. However, a small percentage of the population experiences problems from their gambling behavior. For some, these problems are due to a lack of awareness regarding responsible gambling practices. Their problematic gambling can be halted once they receive adequate outreach regarding the guidelines for gambling responsibly, as well as information about the risk factors and warning signs of compulsive gambling.

For others, the destructive gambling activity is due to a progressive disorder characterized by continued participation in gambling activities despite the increasing adverse consequences. Neurobiological research has indicated that, as with alcoholism and other substance addictions, there are biological components to the disorder. Recognized by the American Psychiatric Association, pathological gambling (also referred to as compulsive gambling) is both diagnosable and treatable.

Missouri's Approach

Missouri Alliance to Curb Problem Gambling – The growing success of Missouri's public awareness program is largely due to the efforts of the Missouri Alliance to Curb Problem Gambling (Alliance), of which the Missouri Gaming Commission is an active member. Formed in 1997, the Alliance brings together diverse groups with a common interest of working on issues relating to problem gambling.² Dedicated to increasing prevention of underage gambling and awareness among all age groups regarding the guidelines to responsibly participate in gambling activities, how to recognize problem gambling and the resources available for those impacted by a gambling problem, the Alliance plays a key role in Missouri's comprehensive program to attack problem gambling.

Other states and countries have emulated various components of Missouri's broad-based approach to problem gambling prevention, outreach and treatment. Indeed, the "Beat Addiction – Choose the Right Path" video, developed by the Alliance as part of a middle school prevention program, received the Award of Excellence from the Communicator Awards international competition this past year.³

Education & Outreach Efforts

Responsible Gaming Education Month (RGEM) – Governor Holden, on June 30, 2003, officially proclaimed August 2003 Missouri Responsible Gaming Education Month.⁴

RGEM 2003 events included a public forum in Kansas City on problem gambling and the family; an

¹ Source: Final Report of the National Gambling Impact Study Commission (1999).

² The Alliance consists of both governing members and participating members. Governing members share the responsibility of administering the Alliance programs and include: the Missouri Council on Problem Gambling Concerns, Inc. (non-profit advocacy group for problem gamblers); the Missouri Department of Mental Health; the Missouri Gaming Commission; the Missouri Lottery; the Missouri Riverboat Gaming Association (private trade organization representing riverboat casino operators); and the Port Authority of Kansas City.

³ The Award of Excellence is the highest award presented by The Communicator Awards competition, which was founded by communication professionals to recognize excellence in the communication field. The video, facilitator's guide and video script were created with input from students, teachers, school counselors, Alliance members and the Missouri Department of Elementary & Secondary Education.

⁴ To our knowledge, Missouri is the first state to set aside one month to highlight awareness activities promoting problem gambling outreach and education. In 1999, Missouri was also the first state in the country to set aside a week to promote responsible gaming and to educate its residents about the programs available to help problem gamblers.

educational exhibit at the 2003 Missouri Black Expo; an exhibit, focus group and educational track on underage gambling prevention at the 2003 Turning Resources and Energy in New Direction (TREND) conference; an exhibit at the fall training for prosecuting attorneys; and a special presentation on co-occurring disorders by Joanna Franklin.⁵ She also provided two counselor training sessions as part of RGEM. RGEM also featured training sessions for gaming employees, educational displays for employees and visitors, an intensive advertising campaign to heighten public awareness about problem gambling and the distribution of educational resources.

Speakers Bureau and Traveling Educational Exhibits – Speakers are available to give presentations for groups and organizations throughout the state. The presentations are tailored to the needs of the group/organization; they can be a broad overview of problem gambling issues, or focus on a specific topic. Topics include, but are not limited to:

- Problem gambling 101 – misconceptions, prevalence rates, risk factors and warning signs;
- Guideline for responsible gambling;
- Underage gambling issues and prevention; and
- Special populations.

All presentations are free-of-charge and include information about the resources – including free treatment – available in Missouri for residents with a gambling problem and their families.⁶

Missouri's Voluntary Exclusion Program

Approximately 900 individuals elected to join the voluntary exclusion program during the first seven months of 2003. In August 2003, more than 5,800 individuals were in the program. Missouri's voluntary exclusion program for problem gamblers was created in 1996 in response to a citizen's request to be banned from the riverboat gambling boats because he found himself unable to control his gambling.⁷ During development of the program, treatment professionals indicated it is essential for problem gamblers to both acknowledge they have a problem and to take personal responsibility for the problem if they are to achieve long-term recovery. The Commission revised the rule and initiated the program consistent with their advice.

Under the provisions of the program, the problem gambler agrees to accept the responsibility of staying out of the excursion gambling boats, that it is not the responsibility of the boats nor the Commission to prevent them from entering the gambling boat, and that if they choose to violate the program and are discovered, they will be arrested for trespassing. Under this program, the Commission requires all licensees to:

- Remove persons in the program from their direct marketing lists;
- Deny people in the program check cashing privileges and participation in player's clubs; and
- Consult the list of people in the program before paying out any jackpot of \$1,200 or more.⁸

⁵ Franklin is the vice president for the Institute on Problem Gambling, serves on the Board of Directors for the National Council on Problem Gambling and is the director of Network Development and Training for Trimeridian in Indianapolis, Indiana.

⁶ For more information or to arrange a presentation, please contact the Gaming Commission.

⁷ The program is formally called the List of Disassociated Persons. The provisions of the program can be found at 11 CSR 45-17 et. seq.

⁸ Internal Revenue Service form W2-G is required for any jackpot of \$1,200 or more. Because this form requires the patron's social security number, the List of Disassociated Persons can be efficiently referenced.

There is no procedure for removal once a person is placed on the List of Disassociated Persons. Those who treat problem gamblers are nearly unanimous in their belief that problem gambling is a lifetime condition and that a person is never cured but continues to work at their recovery day by day – just as an individual with diabetes is never cured, but can control the disorder by vigilant attention daily to the foods selected for consumption and abstinence.

The voluntary exclusion program is not for everyone, nor is it a quick fix for problem gamblers. The vast majority of people who suffer from problem gambling will need counseling or group therapy such as Gamblers Anonymous (GA).

Research – The Commission received an appropriation of \$25,000 during FY 2003 to use toward research to evaluate the efficacy of the voluntary exclusion program. The Commission entered into a memorandum of understanding with the Port Authority of Kansas City to maximize the utility of funds and resources of both agencies. The joint request for proposals for problem gambling programs and research was released in April 2003. The proposals were reviewed during the summer and the awardees were announced on August 13, 2003.⁹ Harvard Medical School was selected to conduct the research that is scheduled to commence Fall 2003. The Port Authority of Kansas City also awarded two grants for youth outreach programs that will allow the Kansas City area to benefit from outreach programs that are age-specific for youth in grades kindergarten through college. The outreach programs are to begin this academic year.

⁹ The awardees were Harvard Medical School, Tri County Medical Health Services and University of Missouri: Wellness Resource Center.

Other Resources for Problem Gamblers and Their Loved Ones

1-888-BETSOFF Problem Gambling Help Line – The efforts of the Alliance to promote 1-888-BETSOFF, Missouri's 24-hour problem gambling help line, have facilitated increased awareness and utilization of the help line. During 2002, the help line received 2,900 calls from individuals seeking problem gambling information and assistance. Individuals calling the help line can receive referrals to certified compulsive gambling counselors, GA, Gam-Anon and consumer credit counselors, as well as information about the voluntary exclusion program and other Missouri resources.

Free Compulsive Gambling Treatment Services – Missouri provides free compulsive gambling treatment services for Missouri residents suffering from problem gambling. These services are open to both the problem gambler and family members; family members can access the services even if the problem gambler does not. Indeed, this can be a valuable tool for loved ones to find the guidance they need to help the problem gambler recognize and accept the problem with gambling. The Department of Mental Health administers this program using a network of private mental health providers who have been certified as compulsive gambling counselors.

Online Resources – Visitors to the Commission's website <http://www.mgc.dps.mo.gov> can access information about the voluntary exclusion program, including the history of the program, frequently asked questions, information on how to place one's self on the List of Disassociated Persons and a sample application for placement on the list. Visitors can also access links to other on-line resources, including on-line support

groups such as GA and Gam-Anon and the official website of the Missouri Alliance to Curb Problem Gambling <http://www.888BETSOFF.com>. The Alliance website provides information about services for problem gamblers, education and awareness material and research about problem gambling issues.

Casino Self-Exclusion Programs – Some problem gamblers choose not to use the list, yet would like to utilize some external method of limiting their access to gambling activity. Many of Missouri’s casinos provide such alternative tools for problem gamblers, which may include temporary or permanent suspension of playing privileges, voluntary suspension of check-cashing privileges, self-transaction exclusion programs and removal from direct marketing lists.¹⁰

Problem Gambling Advocates – The Commission employs a full-time problem gambling program administrator to act on behalf of problem gamblers, their families and friends. Due to the sustained growth of the voluntary exclusion program and increased demands, approval was given during the 91st legislative session to provide one FTE to provide clerical support for the program administrator. The assistant assumed her new duties in November 2002. The advocates assist problem gamblers and their families in locating treatment and other resources; oversee the voluntary exclusion program; train Commission staff and agents; coordinate problem gambling research efforts; conduct public education and outreach efforts; develop collateral materials for education and prevention efforts and assemble information on problem gambling resources.¹¹

Underage Gambling Prevention

Problem gambling is not restricted to adults. According to the National Gambling Impact Study Commission (NGISC), the number of youth at-risk of becoming problem gamblers is more than double that of adults. It also reported approximately 85 percent of youth (ages 18-20) have gambled at some point in their life, and NCPG reports 77 percent of youth ages 12-17 and 72 percent of youth under 12 years of age, report gambling once a week or more.

Contrary to popular opinion, proximity to an excursion gambling boat is irrelevant to underage gambling activity. The most popular forms of gambling for youth are those to which they have easy access (at home, school, etc.) such as sports betting, card games and personal skill activities, with interest in Internet gambling on the rise. The Alliance continues to expand its underage gambling prevention program that includes the speakers’ bureau, traveling educational exhibit, posters and brochures, fact sheets, participation in education conferences and an in-school addictions awareness program targeting grades 6-9. This program addresses the commonalities and differences of addictions in general, with an emphasis on gambling.¹² In FY 2003, this program was enhanced to include an assembly format, which allows the Alliance to reach a greater number of students with a more effective cost per student. In January 2003, the Alliance began distributing the new “Beat Addiction – Choose the Right Path” video kit with a companion facilitator’s guide.¹³

¹⁰ Individuals should contact the respective property for more information about the programs offered.

¹¹ To our knowledge, Missouri is the only state in the nation whose regulatory agency staffs full-time problem gambling advocates.

¹² For more information about “All Bets Off”, contact the Missouri Gaming Commission.

¹³ The video kit is distributed free of charge to schools with students in grades 6-9. From January to May 2003, more than 385 video kits have been requested and distributed, effectively reaching more than 210,000 secondary-level students in grades 6-12, or about 45 percent of Missouri’s secondary enrollment. This video kit has also gained attention internationally, with requests for copies coming from a variety of states as well as Canada, England and New Zealand.

Ameristar - Kansas City

General Manager: David Albrecht
 3200 N Ameristar Drive
 Kansas City, Missouri 64161
 (816) 414-7000

Date Licensed: December 19, 2000
 Gaming Space: 130,000 Square Feet
 Electronic Gaming Devices: 2,828
 Table Games : 106
 Restaurants: 11
 Parking Garage
 200 Room Hotel
 18 Screen Movie Theatre, Concert Hall
 Compensation Directly Paid to Casino
 Employees: \$36,828,000
 Total Direct Payments, Benefits & Payroll
 Related Expenses: \$52,350,000
 Real Estate/Personal Property Tax: \$4,362,000
 State Sales Tax: \$3,537,000
 Charitable Donations: \$1,077,000
 Total Employment: 1,918
 Minority Employment: 616
 Female Employment: 909

Ameristar KC had another solid year as gaming revenue increased 7% to \$209.8 million, taking the lead in the Kansas City market from Harrah's NKC for the first time. Ameristar benefited from the new parking garage, which helped lead patron volume higher, and a slot upgrade which drove slot volume per patron higher. Ameristar maintained their market share lead in the table game sector with a 40% market share.

 Total Employment: 1,832
 Minority Employment: 485
 Female Employment: 872

Ameristar St. Charles stole the show this year as their expanded casino drove revenues higher by 55% to \$243.4 million. They are now the leader in the St. Louis market, beating Harrah's MH by nearly \$7 million. The results exceeded the expectations of Ameristar and the Commission, and proves that a superior facility with exceptional amenities is the recipe for success in Missouri.

 Female Employment: 450

Argosy suffered under intense competition as gaming revenue fell 4% to \$95.6 million for the fiscal year. Aggressive marketing and various property upgrades at the market's other casinos made it difficult for Argosy to draw customers. Argosy is fighting back with their own \$110 million expansion project, which is scheduled to open in late calendar year 2003. The expansion will feature a barge in a basin containing 50% more gaming space than the current boat, as well as additional amenities.

 777 E 3rd Street
 Caruthersville, Missouri 63830
 (573) 333-1000

Date Licensed: April 27, 1995
 Gaming Space: 20,800 Square Feet
 Electronic Gaming Devices: 705
 Table Games: 14
 Restaurants: 1
 RV Park
 Surface Parking
 Compensation Directly Paid to Casino Employees: \$2,181,000
 Total Direct Payments, Benefits & Payroll Related Expenses: \$7,412,000
 Real Estate/Personal Property Tax: \$424,000
 State Sales Tax: \$70,000
 City Lease Payments: \$100,000
 Charitable Donations: \$35,000
 Total Employment: 323
 Minority Employment: 84
 Female Employment: 187

Aztar posted weak results for the fiscal year as the regional Caruthersville economy continues to struggle. Gaming revenue declined 6% to \$22.2 million on a similar decline in patron volume. The absence of new catalysts for growth means tough times will likely continue into the next fiscal year.

 Female Employment: 961

Harrah's MH posted a sharp drop in gaming revenue as they lost significant market share to the newly expanded Ameristar SC casino. Gaming revenue fell 13% to \$236.6 million, compared to 7% growth in the prior fiscal year. Harrah's is trying to fight back with their own \$75 million expansion project featuring a 300-story hotel tower, scheduled to open in late calendar year 2004.

 Female Employment: 807

Harrah's North Kansas City reported only slight growth during the fiscal year despite aggressive marketing and higher slot hold and table win percentages. Gaming revenue increased 3% to \$207.9 million on flat patron volume, similar to the overall market. Next year will likely be a tough year for Harrah's as they battle the current lack of patron growth and the Argosy expansion.

The Isle of Capri in Boonville posted gaming revenue of \$66.2 million for their first full fiscal year in Missouri, which was slightly above our expectations. They are still showing moderate growth as they develop marketing strategies to fit the mid-Missouri gamer. Their Win Per Patron of \$55 was in line with the statewide average, while their slot hold percentage of 7.3% was slightly higher than the statewide average of 6.9%.

Isle of Capri - Kansas City

General Manager: Dan Weindruch
 1800 E Front Street
 Kansas City, Missouri 64120
 (816) 855-7777

Date Licensed: June 6, 2000
 Gaming Space: 30,000 Square Feet
 Electronic Gaming Devices: 1,149
 Table Games: 25
 Restaurants: 3
 Garage Parking
 Compensation Directly Paid to Casino Employees: \$16,961,000
 Total Direct Payments, Benefits & Payroll Related Expenses: \$21,809,000
 Real Estate/Personal Property Tax: \$765,000
 State Sales Tax: \$435,000
 City Lease Payments: \$4,300,000
 Charitable Donations: \$74,000
 Total Employment: 734
 Minority Employment: 385
 Female Employment: 374

The Isle's gaming revenue increased 3% to \$99.3 million, overtaking Argosy in the Kansas City market for the first time in history. The gain reflects an increase in patron volume, while an increase in the slot hold percentage offset a decline in slot volume per patron. The Isle will likely lose considerable market share to the expanded Argosy casino in the coming fiscal year.

Mark Twain - LaGrange

General Manager: Robert Thursby
 104 Pierce Street
 LaGrange, Missouri 63448
 (573) 655-4770

Date Licensed: July 25, 2001
 Gaming Space: 18,000 Square Feet
 Electronic Gaming Devices: 504
 Table Games: 17
 Restaurants: 1
 Meeting Space
 Compensation Directly Paid to Casino
 Employees: \$2,929,000
 Total Direct Payments, Benefits & Payroll
 Related Expenses: \$5,742,000
 Real Estate/Personal Property Tax: \$258,000
 State Sales Tax: \$111,000
 City Lease Payments: \$101,000
 Charitable Donations: \$7,000
 Total Employment: 286
 Minority Employment: 16
 Female Employment: 174

The Mark Twain Casino in LaGrange continues to meet expectations with gaming revenue of \$25.1 million for their first full fiscal year of operation. Their Win Per Patron of \$50 was moderately below the statewide average of \$55, while their slot hold percentage of 7.8% was moderately above the statewide average of 6.9%. Growth in the coming fiscal year will likely be on the slow side as the small markets wrestle with weak economies.

 Total Employment: 656
 Minority Employment: 412
 Female Employment: 358

The President posted weak results as gaming revenue fell 7% to \$73.4 million, compared to 22% growth in the prior year. The decline was due in part to the Ameristar SC expansion, which diverted table revenue, and a more competitive Casino Queen. On a bright note, the President reported higher slot volume per patron, due to an improved slot product. Nonetheless, the coming fiscal year will likely be another tough year in this very competitive St. Louis market.

St. Jo Frontier Casino

General Manager: Nina Moreno-Gensamer
 777 Winners Circle
 St. Joseph, Missouri 64505
 (816) 279-5514

Date Licensed: June 24, 1994
 Gaming Space: 18,000 Square Feet
 Electronic Gaming Devices: 514
 Table Games: 16
 Restaurants: 2
 Meeting Space
 Compensation Directly Paid to Casino Employees: \$6,736,000
 Total Direct Payments, Benefits & Payroll Related Expenses: \$6,194,000
 Real Estate/Personal Property Tax: \$235,000
 State Sales Tax: \$98,440
 City/County Lease Payments: \$622,000
 Charitable Donations: \$49,000
 Total Employment: 257
 Minority Employment: 18
 Female Employment: 153

St. Jo posted weak results as gaming revenues fell 4% to \$25.6, their first decline since their 1998 expansion. The results reflect a decline in patron volume thanks to a weak regional economy and poor results from the table game sector. Nonetheless, gaming revenue at this level still makes them a very successful operation.

CITY OF MARYLAND HEIGHTS

During 1999 the City adopted a policy on the distribution of gaming tax revenues which was revised in 2002. For 2003, 50% of the Gaming taxes are designated for Capital Improvements, 30% for the City of Maryland Heights Expressway Fund which provides for infrastructure around the casinos, 15% for General Fund Operations and 5% for the Reserve Fund.

2003 General Fund		2003 Capital Improvement Projects	
Police Department Expanded Operations	\$ 1,200,000	City of Maryland Heights Expressway	\$ 1,700,000
Finance Department Expanded Operations	\$ 110,000	Street Slab Replacement Program	\$ 1,560,000
GIS System Support	\$ 220,000	Microsurfacing (Asphalt Streets)	\$ 100,000
Public Relations	\$ 90,000	Asphalt Street Resurfacing	\$ 200,000
Administrative (Human Resources)	\$ 75,000	Adie Road Improvements	\$ 4,070,000
Planning Department Expanded Operations	\$ 55,000	Edgeworth Rd. Improvements	\$ 1,550,000
Unspecified Operating Costs	\$ 500,000	Dorsett/I-270 Interchange Planning	\$ 500,000
Total Operating Expenses	\$ 2,250,000	Midland Ave Reconstruction Phase II	\$ 1,020,000
		City Hall/Police Station Design	\$ 1,300,000
2003 Reserve Fund	\$ 750,000	Sidewalk Improvements	\$ 100,000
		McKelvey Road	\$ 150,000
		Eldon Avenue (Lakeport to Hollycrest)	\$ 350,000
		Bennington Place	\$ 100,000
		Weldon Parkway	\$ 250,000
		River Valley Road	\$ 300,000
		Capital Improvement Management	\$ 505,000
		City-wide Identification Program	\$ 100,000
		Total Capital Improvement Expenditures	\$ 13,855,000
		Total Expenditures of Gaming Funds	\$ 16,855,000
		Repayments to Reserve Fund*	\$ 2,520,000
		Total 2003 Uses of Gaming Funds	\$ 19,375,000
		2003 Estimated Gaming Tax Revenue	\$ 15,000,000
		Use of Prior Year's Gaming Taxes **	\$ 4,375,000
		Total Sources of Gaming Funds	\$ 19,375,000

* Represents advances from the City's Reserve Fund in prior years to finance construction of the Maryland Heights Expressway.

** Amounts that had accumulated in the City's Capital Improvement Fund to finance projects in 2003.

CITY OF ST. LOUIS

Three Primary Sources:

2% AGR Tax: Allocated to support police patrols, fire marine unit supplies and conduct public safety related capital improvements on the riverfront.

Admission Fee: Allocated to the City's Capital Fund. These funds are budgeted each year for items such as arterial street paving, bridge repair, rolling stock replacement, public building improvements, etc.

Port Authority Lease (2% of AGR): In addition to gaming taxes, this revenue is in the form of a lease payment paid to the Port Authority. These funds are generally appropriated for furthering housing and economic development efforts of the St. Louis Development Corporation (SLDC).
